During the final correction of the above paper prior to its publication in late 2010, an error was introduced in Table 4. In the

third line, under the subheading 'Measurement studies', the category should read 'Current update without Brazil'. The correct Table is now shown, below.

The publishers apologise for this mistake.

Table 4 Comparison of summary odds ratios in the current pooled analysis update with the pooled analysis of Ahlbom *et al* (2000), adjusted for age, sex, SES and study
