Dear Dr Mattioli

I hope this email finds you well.

I would like to introduce myself as the Commissioning Editor of the journal of Vascular Health and Risk Management. We are interested in adding a review article on "Subclinical vascular damage: current insights and future potential" to the journal and given your expertise in the area, I was wondering if you would be interested in writing this review.

As you are invited to contribute this review, there will be no Article Publishing Charge, should your article be accepted following peer review.

The journal is edited by Professor Roland Asmar, and is indexed in PubMed, ESCI, Embase and more, meaning your research will be discoverable by as many people as possible. More information can be found on the journal homepage: <https://www.dovepress.com/vascular-health-and-risk-management-journal>

I would be happy for you to work alongside colleagues as you see fit (we suggest a maximum of 5 co-authors), and we would aim for a submission date of 19 August 2021.

Please click the link below to automatically register your response with our manuscript submission system, and I will provide further details and author guidelines for the submission:

Dove Medical Press works hard to ensure the integrity of all published articles. To prevent bias, our policy is for editorial decision-makers to be unaware if a paper is an invited review or not. The decision will be based solely on the outcome of peer review, and we cannot guarantee acceptance of any article.

An FAQs page is available on our website at: [https://www.dovepress.com/author\\_guidelines.php?content\\_id=3496](https://www.dovepress.com/author_guidelines.php?content_id=3496)

Please do not hesitate to contact me if you have any questions.

Kind regards,

Jenni Shackleton
